For the fiscal year ending June 30 the Appomattox Lime Plant manufactured 29,455 tons of lime.

The lime plant is a tremendous asset to landowners in this county. Lime is relatively cheap compared to what a farmer in Nansemond or Isle of Wight County has to pay.

Take your soil samples now to determine your lime needs.

Starlings are probably the most important bird pest in Virginia. There are tools that can be used to eliminate or at least ease the problem.

Some tests show that 1000 starlings will consume 65 pounds of feed pellets a day. When starling numbers are high they can consume as much as one-sixth of all the grain in a bunker silo. They can carry diseases of man and animals. They are a public nuisance because of their noise, filth, lice and mites.

If you are having a problem with starlings give us a call and describe your problem.

* * *

Start winterizing your shrubs now before the cold weather arrives. Prune out broken or diseased branches.

It's a good time to renew the mulch around shrubs and roses. Maintain a 2-inch layer. This will conserve moisture and help control weeds.

* * *

The use of chewing tobacco is up -- the highest since 1962.

On the other hand the use of snuff is down. 31.8 million pounds was used in 1963 and only 26.5 million in 1969.

When you look at consumption per male 18 years and over for these products on the National level, we're using 1.02 pounds of smoking tobacco, 1.04 pounds of chewing tobacco, .20 pounds of snuff and 2.18 pounds of cigars (large and small).

An average use of these tobacco products in 1925 -29 was 4.10 pounds of cigars, 4.15 pounds of smoking tobacco, 5.03 pounds of chewing tobacco and .52 pounds of snuff.

Snuff consumption was fairly stable until 1956; since then its dropped rapidly.

* * *

Exports of fire cured tobacco are down 1.5 million pounds from a year earlier. Exports to Norway, the leading buyer were cut in half due to inventory adjustments. Sweden, Britian, and West Germany alos cut their importation.

* * *

Fire cured tobacco will be supported at 44.6 cents, an increase of 4% over last year. In 1968 the crop averaged 50.5¢ a 12% increase over the previous year.

It's interesting to note that Malawi, our chief competitor, sold only 9.6 million pounds this year. This was 25% less than the 1968 crop. Their crop averaged about 30 cents -- up substantially over other years. A new program has been introduced in Malawi to reduce acreage and improve quality.

* * *

Grapes offer a new source of income for farmers. This year grapes were purchased by chain - store buyers, truckers, and other out-of-state buyers at $4 to $6 per bushel for bunch grapes. Normal yields of about 4 tons per acre could mean about $1000 gross per acre.

A vineyard will last for 20 to 40 years. It takes about 435 vines to plant an acre.

We are getting more inquires about grape varieties for home wine production. Two varieties hold promise for Virginia. They are the so-called French hybrids and are being used in New York State. Siebel No. 5279 is an early white grape and Siebel No. 10878 is a mid-season black grape.

as rural incorporated towns with the balance of 407.63 miles listed as rural mileage.

Ordinary maintenance will take $185,000; maintenance-replacement, $62,840; incidental construction, $100,742.91 and State funds project construction $141,056.22.

Expenditures for the fiscal year 1968-1969 total $347,-845.30. Ordinary maintenance accounted for $178,275.43; maintenance replacement, $50,616.38; incidental construction, $118,953.49.

In the case of the maintenance replacement allocation, $16,580.06 of the $50,616.38, was used before the beginning of the new fiscal year but is an allocation for '69-'70. This was done, explained E. L. McCraw, assistant resident engineer, to effect the greatest economy because of construct on work already in progress near the project.

Taking this into account, the budget and actual expenditures match up with very small percentage difference in figures.

Ordinary Maintenance was $178,275.43 of a $180,000 allocation. Maintenance replacement (less '69-'70 work) was $33,636.32 of a $34,940 al o location; and incidental con struction, $118,953.49 out of an allocation of $125,089.43.

The Appomattox County Planning Commission and Robert E. Lee Soil and Water Conservation District must also give official approval, McCleney says, before the study can begin.

Review Budget

Mr. Allen Torrence, highway maintenance supervisor and Mr. E. L. Mc Craw, assistant resident engineer for Appomattox of the Virginia Department of highways, presented the 1969 1969 Maintenance, Maintenance Replacement and Construction Budget and an operational and fiscal summary for Appomattox County for 1968-1969 (See Separate article in this issue).

Warden Reports

Dog warden Leonard Garrette reported to the board that people are dropping out a lot of young dogs", particularly German Shepherd pups, and that such homeless dogs are somewhat of a problem. He also presented claims on behalf of residents for the loss of a sheep and chickens, supposedly killed by dogs and other predators.

Cole Appointed

John C. Cole was appointed by the board to attend seminars on poverty, a series of speeches and panel discussions to be held from October through April at Lynchburg College. The series is supported by the Virginia State Agency for Title I of the Higher Education Act and will involve 50 - 75 community leaders plus invited guests, college professors, students and others. First seminar is October 24 and is entitled "Dimensions of the Poverty Problem."

SS Questions & Answers

Send your questions to Questions and Answers, Social Security Office, P. O. Box 2496, Lynchburg, Va. 24501.

Q. I am a widow and I receive disability benefits based on my own work record. My daughter, who lives in another state wants me to come and live with her. I would like to go, but some friends told me my disability benefits would be stopped if I did. Is this true?

A. No, it is not true. Your disability benefits would simply be sent to your new address when you notified the social security office of your move.

How's That Again?

The National Park staff flipped the switch for the regular presentation of slides and narrative in the Visitors Center one day last week, but they were hardly prepared for what followed. As a young couple came down the steps, the gentleman remarked, "Lee and Grant both saw this show today."

Seems that Mr. Lee married Miss Grant, and were here for a trip, but they didn't stay long enough to give first names or home address.

Mrs. Harvey's 4-H
